

Children First

Late Talkers Programme

Late Talkers is a small accompanied class that encourages parents and carers to support their child's communication skills. Key strategies are introduced in an authentic play setting. This class aims to increase parents/carers confidence in helping their child's language development.

Late Talkers Programme

Agnes 2 – 3 years (Accompanied)

The class is ideal for children with developing language. They may not be talking yet or just beginning to say some words. Games and activities will be designed to increase the number of words your child understands and uses.

It is a fun, active class which includes adult directed aspects as well as child led activities. Adult directed times will involve sharing of information about different strategies as well as feedback from previous sessions.

The following strategies will be covered and demonstrated during the child led activities:

-  Reducing background distractions
-  Direct interaction
-  Following the child's lead
-  Naming
-  Keeping it simple
-  Commenting
-  Using 'traffic light' interactions

Adults attend every session of the block. Parents, helpers, grandparents are invited at different times, however only 1 adult per session to keep focus on the children. Each week different strategies will be suggested to try at home, with a feedback discussion in the following session.
